

Brackets for Sensor with Stands

Resin Stands / Sheet Metal Stands

Resin Stands – Hollow Shaft Type 1

SENJ Calibrated pipe
GSENJ Calibrated pipe
 (1) No. of pipe shafts (1,2) (3) Brackets (A,T,Y)

Hollow Shaft Type 2

(2) Stands (G,S)

SENJK (Strut Clamp for sensor) Enclosed when No. of shaft is 2.
 For detailed dimensions, refer to the right page.
 Material: Stand - Polyamide, Hollow - 304 Stainless Steel

When 2-shaft configuration is selected, SENJK (Strut Clamp for sensor on the right page) is included.
 For detailed dimensions of each product, refer to the drawing on the right page.

RoHS 10

(1) No. of Pipe Shafts	(2) Stands	(3) Brackets
1 For detailed dimensions, refer to the right page SENP / GSENP.	G Flat Mount For detailed dimensions, refer to the right page SENJG.	A Perpendicular Shaft Mount / Tip Rotation Can be fixed at desired location per 11.25° increment. Details of Hatch (B-B) For detailed dimensions, refer to the right page SENJA.
2 These two shafts have the same L dimension. For detailed dimensions, refer to the right page SENP / GSENP.	S Side Mount For detailed dimensions, refer to the right page SENJS.	T Parallel Shaft Mount For detailed dimensions, refer to the right page SENRT.
		Y Perpendicular Shaft Mount For detailed dimensions, refer to the right page SENRY.

Dedicated nuts, washers and M5 Hexagon Socket Head Cap Screws are enclosed with Stands and Bracket set.
