

■ Fabric Chute for Engineering Plastics **M-SHT-EPCS**

Operating temperature: 500°C
 Material Metal part: SPHC

■ Features

- A fabric chute made of heat-resistant, cutting-resistant and high-strength special fibers.
- The chute is attached to the mold with a magnet. It operates in conjunction with the opening and closing of the mold, and gently receives the products.
- This product has a wide range of installation options, such as use alone or insertion into a reversal chute to be dropped onto a conveyor.
